ABOUT ME

A highly motivated and detail-oriented Computer Science undergraduate with strong analytical skills and a passion for software development. Proficient in Java and Kotlin, with experience in building mobile applications. Looking for an opportunity to apply technical and problem-solving skills in a dynamic work environment.

EDUCATION

Haldia Institute Of Technology | 2023 - 2027

B.Tech in Computer Science & Engineering (Cyber Security)

- Relevant Coursework : Data Structures , Operating Systems, DBMS, Networking, OOP
- CGPA - 8.04 / 10

DAV School | 2021 - 2023

Higher Secondary (Class XII)

- Scored 88.2% with focus on Mathematics, Physics, Chemistry and Computer Science.
 - Ranked among the top 1% of the batch and actively participated in competitions.
 - Computer science topper of the batch with a score of 96 out of 100.
-

SKILLS

Technical Skills

- Languages : Java(Proficient), Kotlin, Python, C
- Framework : Jetpack Compose
- Backend : Firebase
- Database : MySQL
- Tools : Android Studio, Git

Soft Skills

- Teamwork, Problem-Solving, Time Management, Money Management
-

PROJECTS

Edutrack - An Online Study Tracking App

 [Github](#)

- Developed an online study tracking app where user can set and track their daily study goals using Kotlin and Jetpack Compose.
- Integrated Dagger - Hilt for Dependency Injection to establish a scalable, maintainable, and type-safe architecture for the entire Android application.
- Used ROOM for storing and updating user's goals.

PROJECTS

Dictionary App

 [Github](#)

- Developed an online dictionary app using Kotlin and Jetpack Compose.
- Integrated REST API for fetching of data from the remote database.
- Used Model-View-ViewModel (MVVM) architecture for seamless data flow within the application.

Shopping List App

 [Github](#)

- Developed a shopping list app to store the name, quantity and the location where the item will be bought from , using Kotlin and Jetpack Compose.
- Integrated Google maps API for finding and storing the location from where an item will be bought.
- Used Model-View-ViewModel (MVVM) architecture for seamless data flow within the application and ROOM for storing data .

LEADERSHIP

Technical Member - Indian Society for Technical Education (Local Chapter)

- Mentored 20+ peers and volunteered for 5+ technical workshops and events held by the society in our college.
- Participated in promotional campaigns for major events and membership drives, managing resources and team members to meet defined recruitment targets.

CERTIFICATIONS

The Complete Android 14 & Kotlin Development Masterclass - Udemy

- Learned basics and fundamental concepts of Kotlin and Jetpack Compose.
- Learned to implement dependency injection in an application.
- Learned how to store data locally using ROOM.

OOPs in Java - Coding Ninjas

- Learned concepts like inheritance, abstraction, polymorphism and encapsulation.
- Solved 30+ problems related to Object Oriented Programming.

HOBBIES AND INTERESTS

- Trading in forex and commodity markets (e.g., gold, silver, cryptocurrencies).
- Manage and execute complex meal planning and preparation for large groups, demonstrating strong time management and organizational skills.
- Playing outdoor games like cricket and football.
